

DuPont™ Tychem® C

DUPONT™ TYCHEM® C

Article No.: 6343DP01

A safe, reliable and lightweight Type 3B protection for the most varied applications. TYCHEM® C garments offer protection against many concentrated inorganic chemicals and particles inferior to 1µm. The TYCHEM® C protective clothing meets EN 14126:2003 requirements for protection against biological hazards in the highest performance class.

These garments offer maximum comfort as they are designed to provide the right fit and ease of movement for the wearer when completing difficult tasks.

Key Features

- 1 Elasticated hood and self-adhesive chin flap
- 2 Stitched and overtaped seams
- 3 Elasticated cuffs and ankles
- 4 Zipper with self-adhesive double zip flap.
- 5 Thumb loop (For safety reasons, the use of the thumb loops is only recommended when double gloves are worn.)

Category 3

The advantages of Tychem®C

- Combination of chemical and biological protection in lightweight limited use garment.
- Excellent protective clothing materials which undergo chemical permeation and mechanical properties testing by independent institutes requested by DuPont and complying with EU Standards.
- Easy to dispose off since the protective clothing contains no halogen compounds. When contaminated they must be disposed off as for contaminated waste.
- Reliable and constant quality: each garment is visually checked before leaving production.
- The garments are designed to provide the right fit and ease of movement for the wearer when completing difficult tasks. Tychem® garments are designed to fit the operator and protect them in most working environments.
- Comfortable, wearers feel better in them since they are extremely lightweight and very flexible.
- Antistatic properties

A wide range of applications:

- Chemical industry
- Pharmaceutical industry
- Petroleum and crude oil environments
- Tank cleaning, inspection and maintenance
- Agrochemical handling
- Decommissioning of production plants
- Decontamination of contaminated land and work sites
- Disposal of hazardous materials
- Industrial cleaning and maintenance
- Military applications
- Emergency response services, spill clean-up and accident interventions
- Disease and disaster management
- Medical applications
